About

Responsive images

Images in Bootstrap are made responsive with `.img-fluid`. `max-width: 100%`; and `height: auto`; are applied to the image so that it scales with the parent element.

Spacing

Bootstrap includes a wide range of shorthand responsive margin and padding utility classes to modify an element's appearance.

How it works

Notation

Examples

Horizontal centering

How it works

Assign responsive-friendly `margin` or `padding` values to an element or a subset of its sides with shorthand classes. Includes support for individual properties, all properties, and vertical and horizontal properties. Classes are built from a default Sass map ranging from `.25rem` to `3rem`.

Notation

Spacing utilities that apply to all breakpoints, from `xs` to `xl`, have no breakpoint abbreviation in them. This is because those classes are applied from `min-width: 0` and up, and thus are not bound by a media query. The remaining breakpoints, however, do include a breakpoint abbreviation.

Borders

Use border utilities to quickly style the border and border-radius of an element. Great for images, buttons, or any other element.

See how your visitors are really using your website.
ads via Carbon

Border

Use border utilities to add or remove an element's borders. Choose from all borders or one at a time.

Position

- **m** - for classes that set `margin`
- **p** - for classes that set `padding`

Where *sides* is one of:

- **t** - for classes that set `margin-top` or `padding-top`
- **b** - for classes that set `margin-bottom` or `padding-bottom`
- **l** - for classes that set `margin-left` or `padding-left`
- **r** - for classes that set `margin-right` or `padding-right`
- **x** - for classes that set both `*-left` and `*-right`
- **y** - for classes that set both `*-top` and `*-bottom`
- blank - for classes that set a `margin` or `padding` on all 4 sides of the element

Where *size* is one of:

- **0** - for classes that eliminate the `margin` or `padding` by setting it to `0`
- **1** - (by default) for classes that set the `margin` or `padding` to `$spacer * .25`
- **2** - (by default) for classes that set the `margin` or `padding` to `$spacer * .5`
- **3** - (by default) for classes that set the `margin` or `padding` to `$spacer`
- **4** - (by default) for classes that set the `margin` or `padding` to `$spacer * 1.5`
- **5** - (by default) for classes that set the `margin` or `padding` to `$spacer * 3`
- **auto** - for classes that set the `margin` to `auto`

How it works

P = padding

M = margin

X = horizontal only

Y = vertical only

Spacing in Bootstrap

Standalone P
padding all the way around

Standalone M
margin all the way around

Spacing in Bootstrap

p-5

equal padding around the object

Spacing in Bootstrap

\$spacer default = 1 REM (root em space)

browser default root em size = 16px

Spacing in Bootstrap

-1

.25 * \$spacer

-2

.5 * \$spacer

-3

\$spacer

-4

1.5 * \$spacer

-5

3 * \$spacer

Bootstrap Cards

A card is a flexible and extensible content container. It includes options for headers and footers, a wide variety of content, contextual background colors, and powerful display options.

Summary

Summary

The screenshot shows a split-screen view. On the left is a code editor window titled "index.html (rembrandt) — Brackets". It displays the HTML and CSS code for a website. The code includes a link to a Font Awesome stylesheet and a section for "Rembrandt Van Rijn" with titles for "Painter, Draughtsman & Printmaker". On the right is a browser window titled "La Galerie d'art de Rembrandt" showing the rendered HTML. The page features a portrait of Rembrandt and sections for "Prints" and "Reproductions of all of Rembrandt's prints available for purchase. Magr Rembrandt's family and friends.".

Summary

The screenshot shows the Brackets IDE interface. On the left is the code editor with the file `index.html` open. The code is as follows:

```
Brackets  File  Edit  Find  View  Navigate  Emmet  Window  Debug  Help
          • index.html (rembrandt) — Brackets

46      <h2>Drawings</h2>
47      <p>Rembrandt was one of the greatest
48      draftsmen in the history of art. His
49      drawings expressed his own feelings
50      and observations.</p>
51
52
53
54      </section>
55      <!-- s3_
56      painting_of_the_week -->
57      <section id="s3_painting_of_the_week">
58          <h1>Highlighted Painting</h1>
59          
60          <p>Castle Overlooking a River (circa 1645)
61          </p>
62
63      </section>
64      <!-- s4_
64      about -->
```

The code editor shows syntax highlighting for HTML tags and attributes. The browser preview window on the right displays a painting titled "Castle Overlooking a River (circa 1645)" by Rembrandt. Below the image, the caption text "Castle Overlooking a River (circa 1645)" is visible.

Summary

The screenshot shows a dual-pane interface. On the left, the Brackets code editor displays the HTML source code for a page titled 'index.html (rembrandt)'. The code is organized into sections for 'Paintings' and 'Drawings', each featuring an image and descriptive text. On the right, a browser window titled 'La Galerie d'art de Rembrandt' shows the rendered version of the website. The title 'Rembrandt Van Rijn' is at the top, followed by 'Painter, Draughtsman & Printmaker'. Below this is a large portrait of Rembrandt, and a section titled 'Prints' with a sub-section about reproductions of his prints.

```

  87      <h3>About</h3>
  88      <p><strong>Rembrandt van Rijn</strong> was a Dutch painter and etcher. He is generally considered one of the greatest painters and printmakers in European history and is most important in Dutch history. His style came in a period of great wealth and cultural achievement that historians call the Dutch Golden Age painting, although in many ways he belonged more to the Baroque style that dominated Europe. He was a prolific and innovative, and gave rise to new genres in painting.</p>

Summary

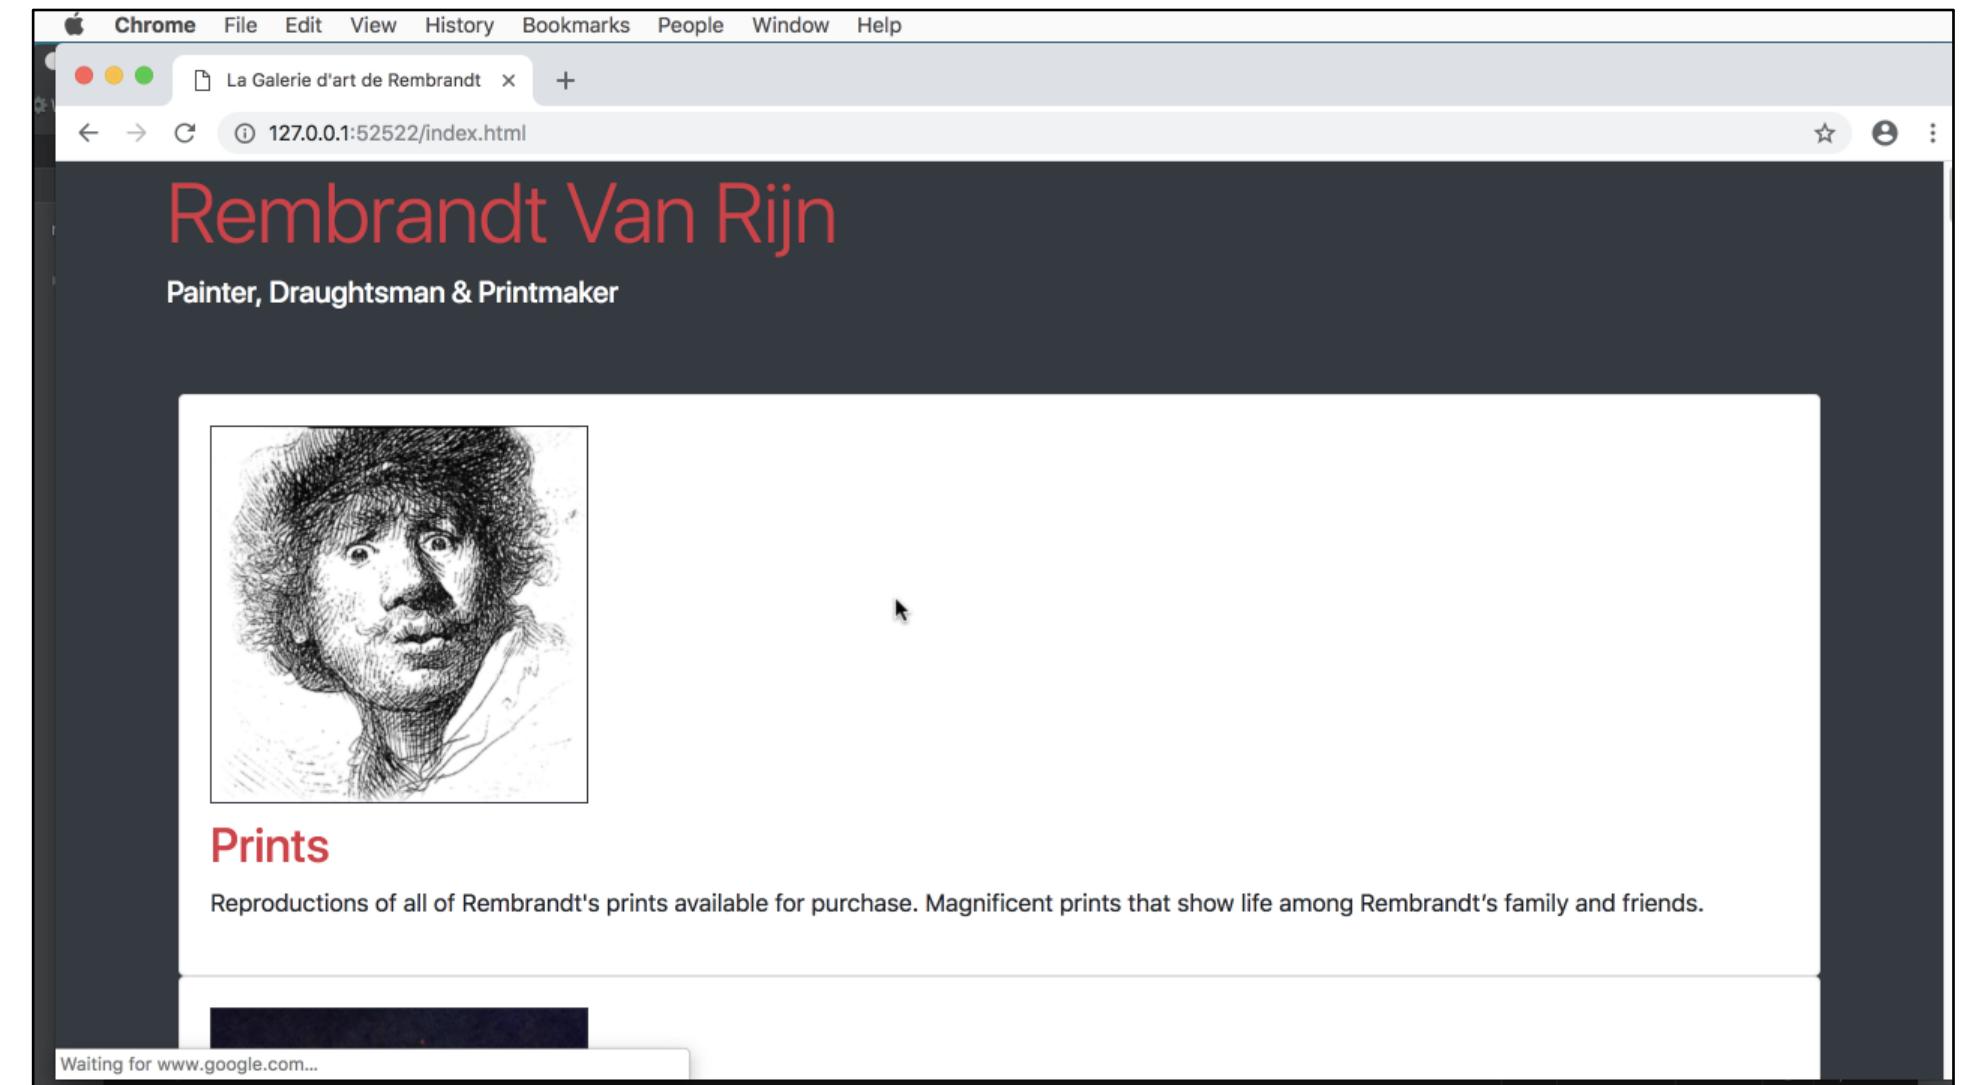

The screenshot shows the Brackets IDE interface. The left panel displays the HTML code for 'index.html' (rembrandt). The right panel shows a browser preview of the website, titled 'La Galerie d'art de Rembrandt'. The page title is 'Drawings'. The browser window shows several thumbnail images of Rembrandt's drawings.

```

The browser interface includes a file tree on the left showing files like "Working Files", "rembrandt", "img", "index.html", and "site-copy-and-paste". The status bar at the bottom indicates "Line 240, Column 43 — 302 Lines".

Summary

Summary

The screenshot shows a desktop environment with three main windows:

- TextEdit Window:** The title bar says "TextEdit mystyles.css (rembrandt) — Brackets". The sidebar lists "Working Files" including "index.html", "mystyles.css", and "rembrandt" folder containing "img", "index.html", and "mystyles.css". Below the sidebar are files "site-copy-and-paste-code.txt" and "site-copy-and-paste-code.txt". The main area displays the following CSS code:

```
1 ▼ .text-danger{
2     font-family:'Princess Sofia', cursive;
3     color: #e5904d !important;
4     text-shadow: 1px 1px black;
5 }
6
7 #s1_header{background:#xxx}
8 #s2_trio{background:#xxx}
9 #s3_painting_of_the_week{background:#xxx}
10 #s4_about{background:#xxx}
11 #s5_prints{background:#xxx}
12 #s6_paintings{background:#xxx}
13 #s7_drawings{background:#xxx}
14 #s8_contact{background:#xxx}
15 #s9_footer{background:#xxx}
16 #s10_copyright{background:#xxx}
```
- Browser Window:** The title bar says "La Galerie d'art de Rembrandt". The address bar shows "127.0.0.1:52522/index.html". The page content includes the text "Rembrandt" and "Painter, Draughtsman & Printmaker". It also shows some code snippets:

```
<i class="fab fa-instagram"></i>
```

PAINTING OF THE WEEK DIMENSIONS

1282 x 807

FONTCOLOR: #e5904d !important;

.text-danger
- Terminal Window:** The title bar says "site-copy-and-paste-code.txt". The content of the terminal is identical to the code shown in the Brackets editor.

Summary

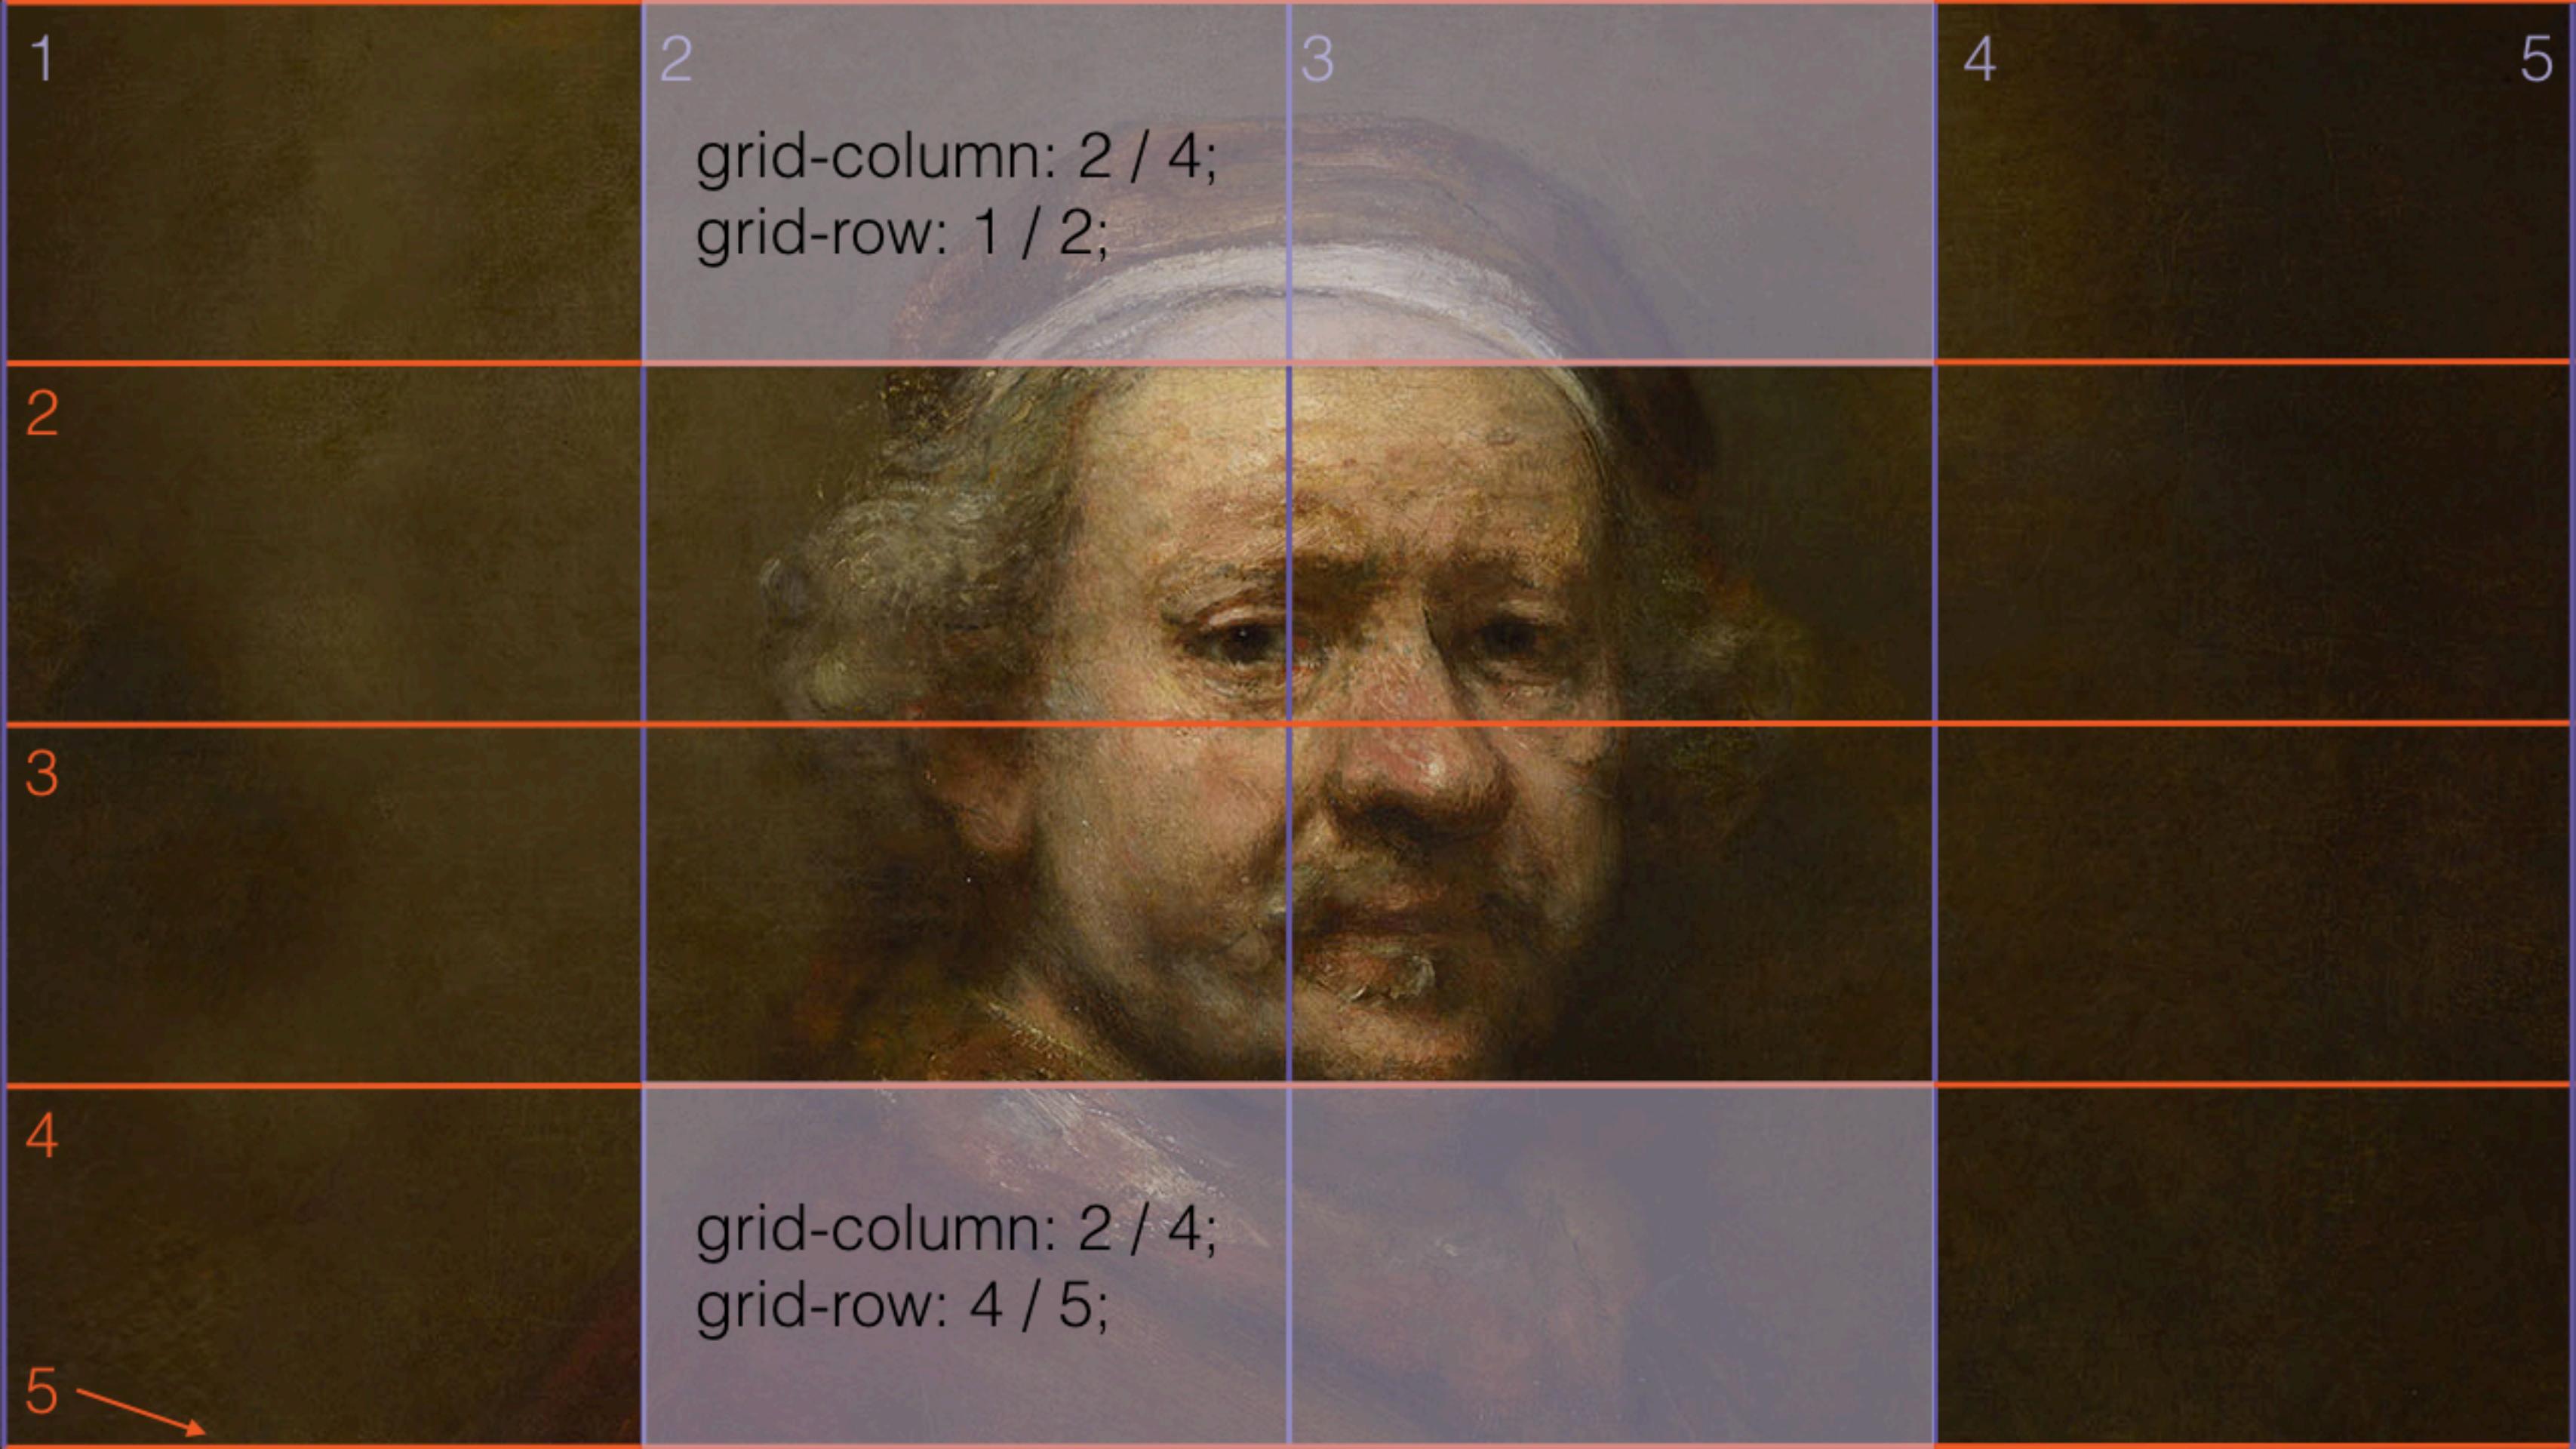

A screenshot of a web browser window titled "La Galerie d'art de Rembrandt" showing a self-portrait of Rembrandt Van Rijn. The browser's address bar indicates the URL is 127.0.0.1:52522/index.html. To the right of the browser is a code editor interface, likely Brackets, displaying the CSS code for the header section. The CSS code includes rules for the header's background image and color, as well as a comment and several empty lines.
