About

Rembrandt van Rijn was a Dutch painter and etcher. He is generally considered one of the greatest painters and printmakers in European art and the most important in Dutch history. His contributions to art came in a period of great wealth and cultural achievement that historians call the Dutch Golden Age when Dutch Golden Age painting, although in many ways antithetical to the Baroque style that dominated Europe, was extremely prolific and innovative, and gave rise to important new genres in painting.

About

Rembrandt van Rijn was a Dutch painter and etcher. He is generally considered one of the greatest painters and printmakers in European art and the most important in Dutch history. His contributions to art came in a period of great wealth and cultural achievement that historians call the Dutch Golden Age when Dutch Golden Age painting, although in many ways antithetical to the Baroque style that dominated Europe, was extremely prolific and innovative, and gave rise to important new genres in painting.

CSS grid-auto-rows Property

Rather than creating straight forward rows with a specific place and size, the grid-auto-rows property lets the browser automatically create the rows in a way that is not plainly expressed.

Summary

The screenshot shows the Brackets IDE interface. The top menu bar includes Brackets, File, Edit, Find, View, Navigate, Emmet, Window, Debug, and Help. The title bar indicates the file is "index.html (rembrandt) — Brackets". The left sidebar shows a file tree with "index.html" selected. The main editor area displays the following HTML and CSS code:

```
22 ▼      <section id="s1_header">

33                  display:grid;
34
Line 34, Column 17 — 309 Lines
```

Below the code editor is a dark rectangular area containing a portrait painting of Rembrandt Van Rijn. The painting is a self-portrait, showing him from the chest up, wearing a dark robe. Above the painting, the text "Rembrandt Van Rijn" is written in a large, stylized, cursive font. Below that, in a smaller white font, is the text "Painter, Draughtsman & Printmaker". The bottom right corner of the dark area has a small circular icon.

Summary

The screenshot shows the Brackets IDE interface with a live preview window in the center. The preview displays a web page titled "La Galerie d'art de Rembrandt" at the URL "127.0.0.1:50888/index.html". The page content includes a title "Drawings" with a descriptive paragraph about Rembrandt's drawings, a small image of a drawing, and a large section titled "Highlighted Painting" featuring a painting thumbnail.

Brackets interface elements visible include:

- File menu: File, Edit, View, History, Bookmarks, People, Window, Help.
- Project sidebar: Working, index.html, mystyles.css, rembrandt, img, index.html, mystyles.css, site.css.
- Code editor: Lines 63 to 88 of the mystyles.css file.
- Preview window: Shows the rendered HTML with the "Drawings" section and the "Highlighted Painting" section.
- Status bar: Line 81, Column 43 — 174 Lines, INS, UTF-8, CSS, Spaces: 4.

About

Rembrandt van Rijn was a Dutch painter and etcher. He is generally considered one of the greatest painters and printmakers in European art and the most important in Dutch history. His contributions to art came in a period of great wealth and cultural achievement that historians call the Dutch Golden Age when Dutch Golden Age painting, although in many ways antithetical to the Baroque style that dominated Europe, was extremely prolific and innovative, and gave rise to important new genres in painting.

Summary

The screenshot illustrates a workflow for web development. On the left, the Brackets IDE shows a file named 'mystyles.css' with the following CSS code:

```

A code completion dropdown is open over the word 'display', listing options like 'grid', 'inline-grid', 'table-row-group', etc. On the right, a browser window titled 'La Galerie d'art de Rembrandt' shows a grid layout with several Rembrandt etchings. The title 'Prints' is visible above the grid.
